Rescue Restore Redecorate®

Q & A

Where can I use Antiqued Zinc?

You can use Antiqued Zinc on a kitchen counter, bathroom counter, coffee table, end table, kitchen table, and more...

Can I use this on outside furniture?

Yes, but it will eventually begin to rust. Waxing with Clear Wax will hinder rusting.

Is this food safe?

Since this is a chemical reaction, you shouldn't prepare food on it - rather, use a cutting board or other food safe tabletop for food preparation.

Step by Step

Clean metal with degreaser / rinse with water

Pour solution into bowl

Apply to metal with t-shirt rag

Continue applying - no specific pattern

Continue applying going "outside the edge"

Once dry, reapply to areas needing more reaction

Apply Clear Antique Wax

Difference between Waxed and Unwaxed
