

How to use the Big Green Egg EGGgenius

We all love a little competitive edge right? Well then, I have just the edge for you. Introducing the EGGgenius. This amazing controller is like having a remote control for your Big Green Egg. Easy to use and adjust and the app allows you to control it from your phone. That's Helpful. Let's get to work, Chef Jason

BIG GREEN EGG – Reference Guide

WHAT'S IN THE BOX:

Adapter Plate	MED & LG/XL
Power Cable	
EGGgenius Control Unit	
Pit Temp. Probe	with alligator clip
Food Temp. Probe	with long temp. probe
Quick Start Guide	

Perfect For: Remote Control of your bbq projects

Technology Requirements: Wifi, Smartphone/Tablet and BGE Egg Genius App

Add Ons Available: Y-Cable and Additional Meat Probes

GETTING STARTED

- Download the Big Green Egg App from the App Store or Google Play
- Open the app on your phone or tablet
- Remove the EGGgenius and connect to power (do not connect any meat probes)
- Look on the EGGgenius for a slow blinking green light
 - Unplug and let sit for 30 seconds, plug back in and wait for light
 - No Green Light? Contact Flame Boss Support at 1-800-978-9078
- Once the light is steady on the EGGgenius, check the app for firmware updates
- Allow the EGGgenius to update firmware
 - Do not unplug or shut off the app
- Now let's get cooking
- Ignite Big Green Egg and establish the start of your fire
- Place in the convEGGtor and setup drip pans and cooking grate. Close the lid
- Insert the adapter plate (for your sized egg) and carefully close the screen and vent to just before the opening of the adapter plate
- Adjust the top rEGGulator to barely open (maybe ¼" max)

- Plug in the EGGgenius and then plug in the pit temp probe and meat temp probe
- Carefully open the Egg and clip the pit temp probe to the cooking grate
 - Be sure to keep it away from the edges of the convEGGtor, this will affect pit temp readings. Place the clip at least 3 inches from the edge of the convEGGtor
- Load your product and insert the meat probe
- Close the lid
- Verify all the readings are showing up on the app
- Set your pit temp and pit temp alarm
- Set your meat temp and meat temp alarm
- Sit back, relax and enjoy the bbq

The EGGgenius will alarm you if the pit temp rises or drops outside of the range you set
