

**Adding duct tape to your pumpkin is a fun and great way to give personality to your fall decor. There are unique and fun patterns available for duct tape that can appeal to nearly anyone's decor style.**

## **How To Duct Tape A Pumpkin**

**Applying duct tape to your pumpkin is also a great way to keep critters away from taking a bite out of your jack-o-lantern**

### **Supplies:**

- 1 Pumpkin
- [1 Roll of Duct Tape](#)
- [Scissors](#)

### **Prep:**

- Make sure your pumpkin is clean and dry

### **Directions:**

- Place the duct tape roll at the top of the pumpkin and pull down towards the bottom. It's ok if you pull a size too small as you can always add more. If it's too long, clip it and reuse that piece on your next application down the pumpkin.
- Attach the tape to the pumpkin with the sticky side being applied to the pumpkin.
- Use your hand to smooth out any bumps on the tape as you're trying to avoid wrinkling the tape.
- Continue covering the pumpkin until it is fully covered with the **duct tape**,
- You may want to add a few pieces to the stem which adds a fun look to the newly decorated pumpkin.
